

THURSDAY, JANUARY 25, 1844.

FOR PRESIDENT,
HENRY CLAY,
OF KENTUCKY.

SEE FIRST PAGE.

This is a busy world. Every true man expects to work and exert a good influence, and promote worthy objects and accomplish just ends, all the days of his life. Neither the truly good man or good angel ever expects to find time to idle away. Long as is eternity, it is not less unending than the demands for labor. But one thing at a time, or, rather every thing in its time. One of the appropriate duties of the American people for the year 1844, on which they have now entered, is to elect Henry Clay president of the United States. In this work there should be no indifference, no want of effort on the part of the great mass of our Republican citizens. This is the year for this work, and if the duty of any man in regard to it is omitted, it is omitted forever. This year the occasion returns, as provided in our political system for obtaining the views of the people of the whole country upon the policy and measures which they will approve, in the general government. The fact is once more to be ascertained, whether the enlightened freemen of the United States still approve that principle upon which the Union was formed, of promoting the general welfare of the people, or whether they have so far departed from primitive Republicanism as to separate the thread that connects government with the people, and which makes it the duty of government to have regard to the people instead of devoting itself wholly to its own existence, regardless of the wants and wishes of the people.

The frequent returning elections in our country are full of significance when properly considered in reference to essential principles affecting the interests of the people. The duty of the people respecting these elections is one of great responsibility. Demagogues often attempt to draw off the mind from the true point of observation, and to blind the eye of the mind by the use of party names and party prejudices. Indeed, we find the Loco party invariably acting upon this principle, and that of exciting prejudice and hatred between the poor and rich, the employer and workmen, and arraying the agriculturists against the manufacturers, and, under cover of this by-play, stealing into office and diverting the government from the true objects of its creation, that of promoting the prosperity of the people.

It is matter of no little rejoicing that the great mass of the people, instead of rushing forward in blind devotion to party, and throwing their votes for men, merely because they have received a nomination, now stop to consider the meaning of a vote, and to tax their reason and judgment in the matter, and to look deep enough to consider the bearing of their votes upon the policy and measures of the government, and the effect these have upon their prosperity and happiness. This is democratic. This is republican. This is doing as the political fathers of our government did. This will elevate our nation, and secure to the people the greatest good the government can bestow. This will lead to the recognition and hearty approval of the truly republican principles of the Whig party, and to the triumphant election of that devoted, earnest, unflinching patriot, Henry Clay, to the presidency, as the best and surest instrument to carry into practice the will of the people.

Court Courier.

DISTRICT COURT.

Edward Smith and Edward Dwyer, were yesterday tried on indictment for larceny for stealing from the Store of Rundlett & Getchell of this city and were convicted—each of the prisoners was thereupon sentenced to the State Prison for 18 months. Hatch for prisoner.

Julius Peterson, a colored boy was then tried for an assault and battery upon one Daniel McLoud with a knife by which a somewhat serious wound was inflicted. The Jury returned a verdict of guilty and the prisoner was therefore sentenced to the house of correction for the time of 60 days. Hatch and D. T. Jewett for prisoner.

Emma Hazen, indicted for larceny for stealing money from Samuel C. Stone was arraigned and pleaded guilty and sentenced to three months imprisonment in the county jail.

Meeting of the Clay Club.

The Clay Club will hold a public meeting at the City Hall this evening by adjournment, when the meeting will be addressed by several gentlemen. It is desirable there should be a large meeting of the Democratic Whigs of our city, and such others as can make it convenient to attend. Almost every passing day gives fresh courage to the heart of the patriot of a happier and better state of the political elements in our country. Let the friends of genuine republicanism meet and congratulate each other on the brightening prospect, and help on the good cause by wise counsels and earnest efforts.

The Woodstock, N. B. Telegraph states that on the 14th inst. a fire broke out in the new building belonging to Mr. James McCann, and spread with fearful rapidity until six buildings were consumed—three of them barns. Several persons were in imminent peril of their lives. The loss is estimated at nearly \$10,000, and there was no insurance.

Only half a mail last evening from the west, and no news of any importance.

We observe that the Gazette and the Mercantile Register, speaking of the advertisement of this room, say that the advertisement of this room is by a subscription. We think this cannot be the case. The association itself is large, and we should not suppose they would wish to admit the public to their room on the payment of a fee or without it. Neither should we suppose that a large and independent association like that of our merchants would enter into competition with individuals who have made no small sacrifices to accommodate the public at large with news reading.

Indeed we feel quite sure that the papers alluded to have misunderstood the arrangements, and instead of the room being public it is confined to the members of the Mercantile Association.

Congressional Election—Fifth District.

The reports from thirteen towns in the Fifth Congressional District, the result of which is that there is a majority of three or four hundred against the regular Loco candidate, so that there is not the slightest probability of an election in that district.

Some of the lumbermen in Canada have become so expert in plundering logs that they boast of being able to back up a yoke of oxen to the end of a log on which a man is sitting and twirl it out, leaving the man sitting on the bark!

Rumored Withdrawal of Mr. Van Buren.

The Richmond Whig of Wednesday contains a letter from a correspondent at Washington, dated January 15, which states that it is currently reported in that city, "that the friends of Mr. Van Buren have in their hands a letter from him, requesting his name to be withdrawn as a candidate for the Presidency."

The Whig adds—"We do not, of course, vouch for the truth of the rumor it alludes to, and will only engage for the veracity of our correspondent."

Rev. Dr. Pond will deliver a lecture tomorrow evening before the Mechanic Association, on the Truth of the Bible. The meeting will be public and the room will accommodate a large audience.

The roof of the Whig Clay Club House at Richmond, gave way on Thursday while a large number were upon it, and fifty or sixty persons precipitated twenty feet to the floor. Several were slightly injured, among whom was Mr. Adie who had an arm broken. There were no serious injuries.

Fight with a Wild Cat.

A wild cat some three feet in length was killed by Mr. John Pillsbury of Scarborough, on Saturday morning last. Mr. P. fell in with him on the Turnpike, and having a stout club in his hand, gave chase, when the animal turned, and showed his teeth. After a pretty severe set-to, Mr. P. succeeded in giving a stunning blow to his ferocious antagonist, and dispatching him. This is the first wild animal of this species recently killed in this vicinity, and we have heard of others being seen. A friend suggests that they may have been driven down from the mountains, to the sea shore, in quest of food, owing to the deep snow. [Part. Adv.]

Report of the Land Agent.

By the existing laws, the timber land owned by the State in severalty, can only be sold in lots not exceeding 700 acres, at public auction and for ready money. The timber on the public lands being seldom found in compact bodies, 700 acres do not generally furnish a supply for a team, and the Land Agent thinks that the restriction as to quantity should be modified.

During 1842, three townships were offered for sale, in sections, at a minimum price, believed to be moderate. Only a few sales were then made. During the past year, the Land Agent has not attempted to force sales, at prices believed by him to be too low, and he thinks that fair prices cannot be obtained under the present laws.

In August last, several townships owned in common with Massachusetts were offered for sale. One township and two quarter townships were sold, viz:—

Township No. 6, Range 15 at \$1,264 per acre. N. W. 1/4 of No. 5, " " at 1,324 per acre. S. E. 1/4 of No. 7, " " at 1,024 per acre.

Samuel Smith was the purchaser of the whole. One fifth of the purchase money was received in cash. For the residue a lien on the land and timber was reserved.

A good bond has been taken for the payment of three dollars per thousand for all timber cut on the land till paid for.

In reference to the Aroostook settlement, the Report says:—

"The settlement of the Aroostook country is steadily progressing, although the quantity of land sold to settlers has not been large. The custom of entering upon the public lands and making improvements thereon without purchasing, continues to a very great extent, and though the consequence is that the records of the Land office do not show the progress of settlement, and the Agent is often perplexed with conflicting claims to the right of purchase, yet the State suffers no injury, and I would not recommend any change in the law relating to settling lands. I think it would be for the interest of the State, to have the good settling land upon the Fish River, and Eastern Aroostook roads, surveyed into lots suitable for settlers. The last named road has been opened the present year from the Aroostook river to the St. John. There is some fine settling land on both of these roads, which would soon be settled if they were surveyed and offered for sale."

In reference to lumbering permits, the Report says:—

"Permits have been given for twelve teams to haul timber from lands of Maine into the Penobscot and Kennebec waters, and fifteen from the undivided lands on the same waters. These teams are all hauling board logs. There are three teams on the undivided lands north of the St. John, hauling timber from the lands of Maine, in the county of Aroostook."

It was not the intention of the Land Agent to extend the lumbering operations upon the unsurveyed lands, but the Canadian government having given numerous permits on the eastern side of the St. Francis, and along upon our northern boundary, it became necessary to exercise the utmost vigilance to prevent trespassing, and in order to do it more effectually, permits have been given for two teams upon the St. Francis, which are to be located at the most exposed

points, and Gen. Webber, who has charge of the business in that section, has been instructed to extend the line of the St. Francis.

Some years have been expended that we should find it difficult to prevent extensive trespasses in that quarter; but when I consider that men of wealth and high reputation are connected with all the great lumbering operations in New Brunswick, as well as in Maine, I can have no apprehensions that there will be any extensive trespasses intentionally committed. The well known firmness, vigilance and prudence of Gen. Webber and his assistants, afford a sufficient guaranty that the rights of the States will be protected in that quarter.

In every community there are, however, those who are continually seeking opportunities to commit trespasses, and when we take into view that much of our northern boundary, is or will be, a mere line in the wilderness, crossing, as it will, several streams navigable for timber, extending for many miles through our territory until they empty into the St. John; and that the borders of these streams are generally coveted with valuable timber, it will be evident that the protection of this timber will be difficult and expensive. I should therefore recommend that the timber north of the river St. John, be sold as fast as a fair price can be obtained for it. If the market for timber in New Brunswick, be good the ensuing season, it is probable that a ready sale may be found for a large portion of the most exposed timber."

Of the \$4,000, authorized to be expended upon the Military Road by a Resolve of last winter, the Land Agent has expended \$3,319. With this amount, he has built a new bridge over the Moineus stream, and thoroughly repaired all the bridges needing repair. He says further:—

"I did not attempt the repair of the road generally, but confined myself to three townships which were not taxable; to wit, No. 1, Indian Purchase, or Mattawambeag, No. 2, in the 3d range, and letter A, in the 2d range. The owners of land over which the road passes, were called upon to repair it over their own lands, and have generally done it; so that it has been put in a good state of repair."

The contract of the State with the general Government, and the interest of the settler, both require that the military road should be kept in repair. A small annual appropriation will be necessary for this object.

In relation to certain other roads the Land Agent says:—

"I was directed by a Resolve of the Legislature to locate and open a road across the Mars Hill township, which has been done at the expense of \$500. The distance is nearly 1100 rods, and it has been cut out fifty feet wide, cleared and grubbed twenty feet, and all necessary bridges and causeways made. It is not probable that the State will ever be called upon to do any more on this road."

I was authorized by a resolve of the Legislature to expend \$6000 in locating and opening a road from the Aroostook river in letter G, 2d range, north of the St. John river, provided Massachusetts would defray her proportional share of the expense. She appropriated but \$3000, and I felt authorized to expend no more than the Agent of Massachusetts did. We have caused the road to be laid out and opened. The first eleven miles, through townships G and H, have been cut fifty feet wide, cleared and grubbed twenty feet, and all the necessary bridges and causeways are well made. The remaining 27 miles have been cleared and levelled 15 ft. in width, the worst swamps causewayed, and the bridges built where necessary, except over the Little Madawaska river. The road crosses this river in township letter K, range 2, and it will require a bridge that will cost 4 or \$500. I would recommend that the balance of last year's appropriation be reappropriated to be expended the ensuing year, and that Massachusetts be again asked to contribute her proportional part of the expense which she will undoubtedly do. The reasons which induced the last Legislature to make the appropriation for this road, have lost none of their weight in my mind, and I believe we are imperatively called upon to make a passable road to connect the Madawaska settlement with the settlements on the Aroostook river.

I cannot omit this opportunity of again urging the necessity of improving the Fish river road. It commences in township No. 11, range 5, and extends north by west about 45 miles, to the mouth of Fish river in township No. 15 in the 7th range. Fort Kent is there situated, and the American settlements on the St. John river are near the post and above. The road is almost impassable in the summer, and the loss of the bridge across the Fish river is severely felt in winter, as the river seldom freezes where the road crosses it.

I have suggested the policy of bringing the timber north of the St. John early into the market. This road being but the continuation of the Aroostook road, is the great avenue into that region of timber, and our shrewd lumbermen understand well the difference between the value of timber situated where supplies can be easily transported, and of that which is a long distance from roads. A few thousand dollars expended on that road would in a short time be returned to the two States with interest, in the increased value of timber on the upper waters of the St. John.

If I am correct in these views, it will be perceived that sound policy requires the immediate improvement of this road."

The survey of the eastern ranges of townships, has been completed to the St. Johns. They are divided into 13 townships and contain 30,403,339 acres, about one half being suitable for cultivation, and the remainder being valuable only for its timber. The pine timber of the 1st, 2d and 3d qualities, is estimated at 82 millions of feet, board measure.

Remainder to-morrow.

Attempt by Malay Convicts to Take the Ship Harriet to Capt.

It is our most painful duty to report a very daring and outrageous attempt which was made on Monday morning last to take the ship Harriet Scott, at sea, by a party of fourteen Malay convicts that had been embarked and sailed on board of that vessel from this port on the preceding Friday, under sentence of transportation to Borneo, in which attempt the commander, Captain Brynman, was most cruelly murdered, and the chief mate, Mr. M'Fee, and three of the crew were severely wounded.

After they had quitted the vessel, the captain was discovered lying on the deck almost lifeless, with extensive and several wounds on his head, and his body shockingly mutilated. He was removed into the cabin and every attention paid to him, but he died about a half an hour afterwards; and his body subsequently preserved in a cask to be interred here, for which purpose, and the weak and reduced state of the crew, several of whom, besides the chief mate, were wounded and required medical treatment, the ship was put about and returned to this port.

Nothing was subsequently seen of the quarter-boat with the convicts in her, but it appears that they were picked up on Tuesday afternoon by the grab brig Harsinger, bound to Calcutta, in sight of this island, when they were recognized and brought as prisoners into port. [Penang Gazette.]

Congressional Votes of Seventh District.

We give below a large addition to our returns from the Seventh Congressional District, received by Gunnison's Express, and by various letters from our attentive friends. It is quite certain that Mr. Cary is defeated after an enormous struggle in his behalf. This is very good, but we hope yet for something a little better, in which, however, we may be disappointed. We are in expectation of an arrival from Aroostook, and shall issue an extra as soon as it arrives. The first returns from Aroostook will probably settle the question.

As far as heard from Robinson has 269 majority over all, making about 400 gain from the last election.

LORRAINE'S PILLS,
OR VEGETABLE UNIVERSAL MEDICINE
CURATIVE
OF THE
French College of Health, in Paris.
THE following letter was received yesterday by
mail from Salem. It gives another evidence
of the great success of Lorraine's Vegetable Univer-
sal Pills.
Sir—I have been for many years a sufferer from
the ravages of Scrofula and Cancerous Humors,
which at last seated on the vitals, and exhibited all
the threatening symptoms of consumption. The
general inability of all remedies awakened my en-
quiries as to the thousand different methods of cure,
to most of which I had recourse without receiving
benefit. I accidentally noticed a remarkable cure
by Lorraine's Pills, and was induced to give them a
trial. I sent to Boston and got a box. By the use
of them I found immediate relief and was soon re-
stored to a perfect state of health.
J. E. NEWHALL.
Salem, 21st May, 1841.

The following letter from J. B. Light, Esq. is wor-
thy of notice.
Sir—I took one of Lorraine's Vegetable Pills last
evening for a pain in my head, that had effected me
for several days, occasioned by taking cold. I soon
felt very calm, and quiet, and a state of general re-
pose came on, which had great charms, and I enjoy-
ed one of the most comfortable and refreshing nights
rest that I ever did in my life. I rose in the morn-
ing in my usual state of health, and believe it is my
duty to recommend this medicine.
Yours truly,
J. B. LIGHT.
Nov. 20th, 1841.

[From Boston Daily Mail.]
Somebody wisely says, that a cap loaded with
jewels and flowers will not cure the headache, nor
gold chains prevent the consumption. Lorraine's
Vegetable Pills have done both.

Sir—I have been effectually cured of a severe
headache by the use of Lorraine's Pills.
SARAH NOYES.

Sir—My daughter had all the threatening symp-
toms of a Consumption, such as cough, pain in the
side, &c., together with general debility, but has
had her health restored by Lorraine's Pills.
Rev. J. KNIGHT.
New York City, Nov. 1, 1841.

Family Medicine.
Sir—I have used Lorraine's Pills in my family as
family medicine, and I would most earnestly rec-
ommend them to all persons, as the best medicine
that can be procured. I would not be without them
—they operate mildly, and never fail to give im-
mediate relief. Until I used these Pills I was obliged
to pay from 20m to \$100 per year for medicines
and physicians, since then I have had no other doc-
tor than Dr. Lorraine's Pills. JAMES NEAL.
Hartford, Conn. July 8.

Lame Back.
Sarah Snow was cured of a lame back in one day,
when she had been unable to dress herself alone for
two weeks.
Susan Jones of Boston, cured in 36 hours of lame
back and side of three weeks standing.

Sick Headache.
Mrs. Bird of Providence says, that Lorraine's
Pills have proved a real blessing to her. It has sur-
passed any thing that has been brought to the public
notice. I have been cured of a sick headache that
had afflicted me for years, by the use of Lorraine's
Pills.

THE CONDITION.
The condition upon which nature gives health to
man, is a watchful care to keep his stomach and
bowels free from morbid and unhealthy accumula-
tions. Lorraine's Pills admirably effect this, be-
cause they cleanse the bowels and purify the blood.
The human body is always healthy when the
bowels are regular, the blood circulates freely, and
disease invariably commences when obstructions
take place in the bowels.
The extraordinary virtues of Lorraine's Pills de-
pend upon extracts of over 50 different vegetables,
all so admirably combined as to purify, nourish and
invigorate the human system.

PATENT MILL WHEELS.
THE Subscriber having for a long time given
his attention to the construction and operation
of Water Wheels, has finally succeeded in the in-
vention of two kinds of Wheels for which he has
received Letters Patent from the Government of
the United States.
These Wheels are simple in their construction,
cheap and durable, are easily put in operation, and
are not liable like most other wheels to get out
of order, they are not obstructed by back water, when
the head is not diminished thereby; and the same
power and speed is obtained, with about one half
the quantity of water usually applied to wheels
now in general use.
A great number of these Wheels are now in op-
eration and give in all cases entire satisfaction;
and for further information respecting them the fol-
lowing gentlemen are referred to, all of whom have
some of said wheels in operation: Jacob Drum-
mond, James B. Pike, Amos Davis and Leonard
March, Esqrs, Messrs. Fiske & Norcross, Foster
& Gilman, S. P. & H. Strickland, W. T. & H.
Peirce & Co. Bangor; Hon. J. S. Little, Portland;
Hon. John Otis, Hallowell; F. A. Butman, Esquire,
Dixmont; Robert Treat, Gen. A. Peirce, Esquires,
Frankfort; Daniel Dennett, Esq. Milo; Col. Henry
Orne, Milton; Messrs. Fiske & Bridge, Milford; Ira
Wadleigh, Esq. Oldtown; Capt. R. Fittz, Dedham;
John Black and John M. Hale, Esqrs. Ellsworth;
Messrs. A. Campbell & Co. Cherryfield; Daniel
Harwood, Esq. Machias; Levi L. Lowell, Calais.
The above wheels are manufactured and for sale
at the Iron Foundries of Messrs. HINCKLEY &
EGERY and FRANKLIN MUZZY & Co. in this
city, who are furnished with a great variety of pat-
terns, so that Wheels of any particular description,
or adapted to any given head of water, can be fur-
nished at short notice. They are also authorized
to dispose of the Patent Right for the same.

STRANGE it is that persons who attend strictly
to personal cleanliness, baths, &c., should neg-
lect the Head—the Hair—the most essential—the
most exposed—and the most beautiful, when pro-
perly cared for, of all the gifts of the Creator. Per-
fectly free may it be kept of dandruff or scurf, with
a certainty that the hair cannot fall out, by the use
of the **BALM OF COLUMBIA**. Ladies will you
make your toilet without this article? I answer
fearlessly no, if you have once tried and experi-
enced its purifying effects—sweet perfume.

**HIGHLY IMPORTANT TO
CONSUMPTIVES!**

THE Time has come when Consumption may be
checked with the curable diseases.
The Subscriber announces the gratifying intelli-
gence that he is constantly receiving from England
large supplies of
**Bucan's Hungarian Balsam of
LIFE!**
THE ONLY compound known to the Medical Faculty
which will effect a speedy and permanent cure of
that dreadful malady.
CONSUMPTION!
AND ALL DISEASES OF THE PULMO-
NARY ORGANS.
For the last six years the Hungarian Balsam
has been in extensive use in Great Britain, and
throughout the Continent of Europe, where it has
completely astounded the Medical Faculty by its
unparalleled success in the cure of the most
HOPELESS CASES
of Consumption ever brought under their notice.—
In England it has cured thousands upon thousands
of all classes, in cases of the most dangerously
Consumptive character; and the English papers are
full of extravagant eulogiums upon it, and upon its
distinguished authors.
This Balsam has also been introduced into the
practice of some of the best Hospitals, Infirmaryes
and other Institutions in Great Britain, and has re-
ceived the public sanction of the most distinguished
Chemists and Professional men, as the
MOST WONDERFUL CURATIVE
of Pulmonary Diseases in the whole range of Phar-
macy.
A Committee of seven of the most celebrated
Physicians of London, who were requested by
Dr. Buchan to give their unbiased opinions of his
Balsam, have, under their own names, unreserved-
ly pronounced it an
UNRIVALED SPECIFIC:
And they unhesitatingly recommend it to be kept
in every family as a CONSUMPTIVE TENDEN-
CY. The joint certificate of these Physicians
accompanies each bottle of the Balsam.
Dr. Buchan has been elected an honorary mem-
ber of the prominent Medical Societies of Europe,
and his Balsam is now so well established that lib-
eral minded men, in the Medical profession, prescribe
it for their patients, as the
BEST OF ALL REMEDIES
for Pulmonary complaints and physical debility—
and it is universally received as one of the best
medicines of the day.
The great merit of Dr. Buchan's Balsam is this:
in all cases of Pulmonary complaints it gives
IMMEDIATE RELIEF.
A single bottle will reveal its astonishing virtues;
and open at once the fountain of health and strength
to the afflicted.
Price of the Balsam, only \$1 per bottle, with
full Directions, Dissertation or Consumption; No-
tices and Certificates of Remarkable Cures, &c.

NEW PRINCIPLES OF PURGATION!
CORNARO'S
Purifying and Preserving PILLS.
THE American public has for a long time been
the victim of a false and dangerous system of
medicine founded on the practice of LONG CON-
TINUED AND UNRELIEVED PURGATION.
The evils of this old system are of the most wide-
spread and alarming character. They have reach-
ed in every city, village, and hamlet—in every
State and Territory of our vast Republic. will be
found those who have suffered, or who are still suf-
fering from the injurious effects of this old system
utter prostration of those who test it furnish the
most condemning proofs!
COMMON DRASTIC PURGATION
Scours out the system by the most improper and
violent means, and then leave it, weak, low, feeble
debilitated, to regain its strength as best it may—
Sometimes the consequences of this old Purga-
tion practice are worse than mere Debility. Innum-
erable other horrible disorders are produced, simply from
the want of some enlivening and preserving power
in the medicine employed. Sometimes the diges-
tive organs are deeply and permanently injured by
this coarse and unphilosophical practice, leaving the
patient AN INVALID FOR LIFE.
The alarming evils and absurdities of the old sys-
tem of Purgation, have led to the introduction of a new
Life-giving Medicine, called **CORNARO'S PUR-
IFYING AND PRESERVING PILLS**, which are
established on this new and only true principle of
Purgation, viz:
**NO PURGATION WITHOUT IMMEDIATE
RESTORATION.**
The use of this admirable Purgative remedy
strikes a death blow to that abominable system
which by continually evacuating the bowels with
out any conservative or saving power, so dreadful
and fearfully prostrates and injures the unhappy
patient. These Purifying and Preserving Pills are
believed to constitute the perfection of medicine,
being a **UNIVERSAL VEGETABLE PURGA-
TIVE**, containing two great remedies combined
viz: One remedy to PURIFY FROM CORRUPT-
ION, and another to PRESERVE FROM INJURY
AND DECAY.
And for the purpose of attaining the highest de-
gree of purity in the preparation of these Pills, Dr.
Bradlee has, at a vast expenditure of time and
money, invented and patented at Washington,
chemical and philosophical apparatus for distilling
and refining vegetable extracts, called
THE SEVEN-FOLD FURNACE,
A powerful and novel machine—having Seven Fire
and Seven Alembics, with distilling, condensing
and evaporating fixtures of a new and ingenious
contrivance, capable of obtaining more than sev-
eral times the ordinary purity of any vegetable extract
heretofore used in compounding medicine. The
Balsamic and Preserving power of these Pills is
also, by this invention, highly purified and refined
and so mingled with the operative medicine, that
repairs all the injuries created by Purgation as such
they are caused, and strongly fortifies the sys-
tem against future corruption and decay.
Let the public be no longer deceived by the ad-
vertisements of the "one remedy" doctors, who sell
their entire ignorance of the organic laws of the hu-
man system by supposing that a medicine which
purges merely, without renovating or preserving can
be a perfect remedy. For it is a fixed and immu-
table law of our being that there should be no more
Purgation without immediate Restoration; and hence
it follows, and is proved to demonstration, that a
Purgative which DO NOT possess a saving or
preserving power, are injurious, and injurious only,
and possess NOT ONE REDEEMING QUALITY.
The whole theory of common drastic Purgation
based upon unnatural and absurd laws, and they who
follow it fall victims to their own folly, and too late
repent their temerity.
**BEWARE OF UNRELIEVED PURGA-
TION!** Purge and Preserve, or do not attempt to
Purge at all.
The celebrated PURIFYING AND PRE-
SERVING PILLS, purify the body from corruption
and preserve it from injury and decay by a single
operation. They are a Universal Vegetable Pur-
gative, of sovereign use in all diseases of the hum-
an system in which purgation is required, particularly
in Jaundice, Indigestion, Dyspepsia, Eruptions of the
Skin, Scrofula, Piles, Constiveness, Bilious Disorders,
Liver Complaint, Fever, Nervous Disorders, Insur-
munity, Cholera, Hysterical, Worms, Gout, Rheu-
matism, Female Complaints, Depression of Spirit,
Debility of System, Pits, &c., &c.

**DR. TAYLOR'S BALSM OF
LIVERWORT.**
PRICE REDUCED.
DR. TAYLOR'S Balsam of Liverwort, from
375 Bowery, New York—for the cure of
Coughs, Colds, Catarrhs, Asthma, Soreness of
the Chest, Pain in the side and Breast, raising of
Blood, Liver complaint, Bronchitis, and all those
affections of Throat and Lungs which are a source
of so much suffering and unrelieved, so often ter-
minate in Consumption—this remedy is highly ad-
justly distinguished. It is purely vegetable, mild
and gentle in its effects upon the system, and can
be taken in the most delicate cases, with safety
as well as utility. Physicians, aware of its medi-
cine properties, and witnessing its effects even in ex-
treme and in some instances apparently almost hope-
less cases, often prescribe it in their practice, but
as a palliative and a remedy, and with the Medical
Faculty generally it has met with great approba-
tion.
CONSUMPTION.—The following remarks were taken
from the last number of the Medical Magazine:
"The surprising effect produced by the genuine
Dr. Taylor's Balsam of Liverwort, made at 57,
Hawley, in consumptive cases, cannot fail to excite
a deep and thrilling interest throughout the world.
We have so long considered this disease (consump-
tion) incurable, that it is difficult to credit our ac-
quaintances when we see persons, evidently consump-
tive, restored to health. Yet it is a fact of daily occur-
rence."

Certificates from the highest and most respect-
able sources, or persons who have been either
greatly relieved by it, or entirely recovered from
affections of the Lungs and Liver, could be for-
warded in abundance, but we insert only the following
CERTIFICATE.
Liver Complaint and General Debility. I was given
up by two physicians, and told to prepare for
death. I was so weak I could not raise my hand to
my head. I was in this low state, when a friend
sent me a bottle of Dr. Taylor's Balsam of Liver-
wort, from 375 Bowery, and before I had used it
the bottle, I was able to sit up in bed. By the fur-
ther use I have completely regained my health.

very best remedies ever discovered and counterfeited
